

FAASTeam presents:

Western Iowa/Eastern Nebraska Quarterly FAAST Seminar and CFI-DPE Forum

Seminar will start with FAASTeam presentations--discussing "Traffic Pattern Operations" and "Pilots and Medications"--then transitions to a (hopefully) guest speaker AME, then wraps up with a discussion amongst CFIs and local DPEs regarding training and checkride topics. All pilots are welcome to attend and participate in both sessions.

This FAASTeam seminar and CFI-DPE Forum meets the local quarterly requirement for FAASTeam events at the Council Bluffs Municipal Airport. It is open to all interested regional pilots, particularly those in western Iowa and eastern Nebraska. Council Bluffs Airport is a full service airport, so fly-in participation is encouraged.

Directions: Event will be held at Council Bluffs Municipal Airport FBO in the upstairs conference room. Directions to the airport are thus: I-80 east, exit 8, then east on U.S. 6, then follow airport signs. "Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines."
